CARPENTER

Albania

GLOBAL MISSIONS SERVICE

The Carpenters began their missions journey in 2004 under the AIM program. As pioneering missionaries, they have served in every imaginable organizational function. They have worked with multinational teams comprised of American missionaries, regional missionaries, and national leaders to see more than twenty cities in five unreached nations opened to the gospel. Through miraculous victories and challenging setbacks, they have seen God's hand direct and lay out a path to revival. They feel directed by God to pioneer an Apostolic work in the country of Albania. In February 2024, the Carpenters were appointed Career Missionaries to Albania.
