BENIN UPDATE

Our second Bible school is up and running in the city of Bohicon, Benin! We began in September with ten students.

Additionally, a generous doner has given the funds for the UPCI of Benin to purchase our own land for this second Bible school location. This prime piece of land sits directly facing a major highway.

Isn't God wonderful!

C.A.R. UPDATE

Our first Bible school graduation for the Central African Republic took place this past August. This group of eight graduates have persevered through wars and much dishevel in their country. Through it all, they persisted and finished their schooling! We were honored to have the wife of the president of C.A.R., Madame Tina Touadéra, attend the graduation and gift each graduate with a Bible!
