

# *Brainos: French Press*

3<sup>rd</sup> quarter 2023

We had the privilege of teaching thirty students in our August session of the French Bible Institute (our national Bible School program). The class focused on some of the Pauline epistles touching on topics of importance to Apostolics, as well as being edifying to the students in general.

This year's Sunday school children's camp was filled with excitement as eight children received the Holy Ghost. The potential of these young believers inspires dreams of what the future may hold for the Church in France.

It is always a special treat when we get to connect with Global Missions supporters on our side of the Atlantic. We were able to meet up with the Bryants while they were making port in our area while on a cruise. We enjoyed the time of fellowship this provided.

**Each time your gift comes we realize that your prayers back it up. That is such an encouragement.**

**Thank You,**

**Marcus and Renée Brainos**
