

GATS FACULTY DEVELOPMENT FOR SUSTAINABLE REVIVAL

Thank you for your prayers and sacrifice for missions worldwide! We are so thankful for the continued support you provide as we fulfill the missionary calling in Brazil!

We are actively engaged in faculty development for our 100+ bible schools throughout this vast nation. This year we plan to hold a total of 16 Faculty Development seminars with a total of 15 class hours each. This endeavor has incurred unprecedented expectation in the districts as well as a seed of REVIVAL! The UPC of Brazil is on fire to train and equip the future generation of leaders for sustainable REVIVAL! What an exciting time to be involved in the Kingdom of God in these last days!

On many occasions our travels take us to remote regions of Brazil. In these pictures you see me on my way to a GATS Seminar in Urucará, Amazon Brazil; 2 hours by bus, 4 hours by plane, 5 hours by car, 2 hours by boat, literally, to the uttermost part of this country. These are district events that serve as a spark of REVIVAL in the hearts of the teachers and leaders. **Thank you for your faithful support!**
